Intermediate proficiency

Background includes customer support, designing websites and landing pages in Agile environments. Exceptional team player with an analytical approach to developing useful solutions. Enthusiastic Web Developer eager to contribute to team success through hard work, attention to detail and excellent organizational skills. Motivated to learn, grow and excel in IT industry.

WORK EXPERIENCE

Junior Application Developer

Integrated Computer Systems, Inc.

January 2021 – Present

- Participated in design and planning exercises for future software rollouts.
- Resolved system test and validation problems to provide normal program functioning.
- Provided positive customer support training experience for completed applications.
- Modified existing web application to correct coding errors, upgrade interfaces and improve overall performance.
- Utilized such technologies as MVC, HTML5, CSS/SCSS, Bootstrap, JavaScript and SQL Server 2012 to develop new applications.

PROJECTS

Click2Buy Prime

- Assigned on developing the provided design specification of a prospected e-commerce website of the company.
- Migrate to Laravel Framework after finishing the prototype and change the URL path into a dynamic path according to its category.

Web Landing Page

- Develop the design specification from marketing department into the company website using Wordpress.
- Regularly update the other department regarding the status of the project.

Tools and Equipment Monitoring System

- During our capstone project, I was assigned to develop a system that will monitor the tools and equipment from the college laboratory.
- Saved waiting time of the students and administrative personnel who manually borrow and monitor the assets from the laboratory.

EDUCATION

Diploma in Information Communication Technology

Polytechnic University of the Philippines

June 2017 – September 2020
